Date of Birth: 05/06/1980 • Nationality : French • Swiss Permit B  
Phone: + 41 78 251 95 80 • Address : Geneva

## PROFESSIONAL EXPERIENCE

### FullStack Developer - [Halphen SRNTY](#) , Star-up at Geneva, Switzerland

May 2023 - December 2023 - 80% work

User centric application development for a professional services marketplace platform.

- Frontend coding of the initial version of the app within a team of 5 developers working in collaboration with the marketing and the UI/UX design departments.
- Data structure creation of the API, configuration of Docker containers.
- Setup and management of source code management (version control with Gitlab)
- Implementation of a multi-level authentication system (signup / login and reconnection).
- Implementation and management of various APIs (Google map & address auto-completion & organization, socket IO, AWS S3, Stripe, Twilio)

*"My early commitment in the Start-up's project allowed me to participate actively in the definition of the development stacks, user experience and data structure. I was also involved in the developers recruitment process and the team building for establishing a positive and conducive work environment."*

**Technologies** [Docker](#) / [Node.js](#) / [Next.js](#) / [React.js](#) / [Tailwind](#) / [Gitlab](#) / [Trello](#) / [Jira](#)

### Job search & Parental leave - August 2022 - May 2023

### Fullstack Developer - [JH Media Group](#) , Atlanta, USA

In Full remote: April 2022 - August 2022 at 100%

#### 1. Development of a COVID related application

White-abelled SaaS application to test and regulate the access of staff & visitors to a company's premises.

- Features development
- Debugging and refactoring.

*"I joined the project when it had reached 75% of the MVP development stage, gaining valuable insights into version control within a development team, as well as honing my skills in debugging and refactoring on a complex project."*

**Technologies** [Docker](#) / [PHP](#) / [Laravel](#) / [Composer](#) / [Vue.js](#) / [Bootstrap](#) / [Bitbucket](#) / [Confluence suite](#)

#### 2. Development of a Wordpress site [jhmediagroup.com](#)

The corporate website required an update, so we established a new WordPress site and revamped both its design and layout.

- Custom feature development
- Performance optimization and compliance with accessibility standards (ADA Compliance).
- Responsive design optimization.

**Technologies** [Wordpress-Divi](#) / [Cpanel](#) / [HTML](#) / [CSS](#) / [Javascript](#) / [PHP](#)

### July 2021 - March 2022 Professional training (see below)

### Web Integrator - [Freelance](#), France

January 2019 - June 2021

Website development, project management, content creation.

Our clientele was made up of associations, tradesmen and self-employed people from various sectors.

- Clients relations (proposal, specifications, project monitoring)
- Project management and infrastructure implementation
- Content creation and integration
- Troubleshooting
- Search Engine Optimisation

*"Working as a freelance developer has allowed me to improve my ability to understand and translate my clients' ideas and needs. Managing the different aspects of a project from its design to its production is a learning experience and requires transversal skills (relationships, rigor, punctuality, reliability) that I have acquired in my previous professional lives."*

## PREVIOUS WORK

**Chef and Culinary Support Specialist - Freelance and for a caterer** - France

2016-2019

Apart from culinary skills, this job requires that we be focused, creative, proactive, reactive and organized. Having acquired those skills has helped me every day in my life as a developer.

**Salesman** - France / Spain / Belgium - *at exhibition fairs and craft markets*

2006 - 2015

In contact with customers, I developed my listening and persuasive talents as well as my ability to express myself in public. Business is a school for developing human relations. This experience allows me today to work in harmony within a team.

**Sports guide in kayaking - Rafting - white water swimming** - France

1995 - 2006

Guiding competitors or simply holidaymakers on natural trails demands a keen sense of safety and priorities. Organizing such activities also requires skills of anticipation and organization, which I use every day in my professional environment.

## PROFESSIONAL TRAINING
